João Pedro Lopes Gonçalves | Portfolio

**Objective:**
Computer Engineering student with experience in project management, process automation (Python, VBA), and data analysis (Oracle, Power BI). I am seeking an internship opportunity to apply my knowledge in software development, systems optimization, and contribute to innovative projects, with a focus on agile methodologies and teamwork.

**Professional Experience:**

**Project Engineering Intern - TechnipFMC** · October 2024 - Present
- Responsible for automating complex processes and managing large volumes of data using Python, VBA, and Oracle (Java)
- Support in project execution, ensuring completion within deadlines and compliance with high-quality standards.
- Utilized advanced English proficiency for consulting technical documentation and effective collaboration.

**Education:**

**Computer Engineering Undergraduate**
Instituto Federal Fluminense, Campos dos Goytacazes
8th semester - February 2022 to December 2026 (Expected)

**High School Diploma**
Colégio Nossa Senhora de Lourdes
February 2019 to November 2020

**Additional Information:**

- **Languages:** Proficient in Python, Java, HTML, JavaScript, Oracle DB, and Microsoft Office Suite.
- **Agile Methodologies:** Experience with Scrum, Kanban, and Lean.
- **English Level:** Advanced
